

MineWhite™

For Coal Dust Explosion Mitigation

MineWhite™ is an excellent solution for mitigating coal dust explosions. With silica content below MSHA requirements, and a high whiteness level, MineWhite™ provides a safe solution while enhancing the brightness of mine work areas.

MineWhite™ is a natural dolomitic limestone product that is pulverized to a fine particle size distribution, and contains no additives. MineWhite™ is dry and free-flowing, and is a white color.

- **Dolomitic limestone delivers high whiteness levels, providing a bright work area**
- **Below MSHA requirements for silica content**
- **Exceeds MSHA specifications for particle size distribution**
- **Available in 50lb. bags. 40 bags per pallet (2,000 lbs.)**

TYPICAL PROPERTIES		
Mesh	Material % passing	MSHA Specification
#20 (.85mm)	100.0	100%
#30 (.60mm)	100.0	
#50 (.30mm)	99.7	
#60 (.25mm)	99.4	
#100 (.15mm)	97.9	
#200 (.075mm)	87.5	>70%
SiO ₂	2.3%	<4%
Dry Brightness (GE)	83	N/A
